DETAILED ACTION

Claims 20-24 are pending in the instant application.

Response

Applicant's response filed on 12 June 2006 is acknowledged.

Examiner has reviewed Applicant's amendments and arguments. Unfortunately, they are not found persuasive.

The difference between the instant claims and the prior art is the hydration state, as both are directed to the same product, an alkali metal salt of 2-(2,4-difluorophenyl)-1,3-bis(1H-1,2,4-triazol-1-yl)-2-propyl dihydrogen phosphate. MPEP Chapter 2100 discusses patentable subject matter. In particular, Chapter 2112 discusses that something which is old does not become patentable upon the discovery of a new property. A rejection under 35 USC 102/103, in this case a 103 type obviousness double patenting, can be made when the prior art product seems to be identical except that the prior art is silent as to an inherent characteristic. Hydration state is an inherent characteristic of salts, crystals, compounds, etc... It is easily be manipulated by one skilled in the art and finding a hydration state of a known product does not make it patentable over the prior art. Therefore, the burden is now on Applicant to show an unobvious difference, that is not an inherent characteristic of salts, between the product of the instant application (a stable disodium salt of fosfluconazole), versus the prior art of fosfluconazole (an alkali metal salt of 2-(2,4-difluorophenyl)-1,3-bis(1H-1,2,4-triazol-1-yl)-2-propyl dihydrogen phosphate).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1626

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
